

TKH Vision opens new experience center in Cupertino

TKH Vision has opened a new experience center in Cupertino, California, to further expand its presence in the United States. TKH Vision represents all the TKH 2D and 3D machine vision brands.

The spacious office and laboratory areas in Cupertino will feature the comprehensive 2D and 3D technologies, software and AI solutions to support all machine vision needs. Application setups utilizing all the technologies from the TKH Vision companies showcase the broad portfolio of one-stop-shop, plug and play systems that TKH Vision offers, allowing customer to experience the integrated TKH Vision solutions live. Besides Cupertino, TKH Vision hosts an experience center in Konstanz, Germany.
